Frontier is focused on more than low fares. The carrier offers customers the ability to customize travel to their needs and budget. For example, customers can purchase options a la carte or in one low-priced bundle called the WORKS. This bundle includes refundability, a carry-on bag, a checked bag, the best available seat, waived change fees, and priority boarding.

The airline's frequent flyer program, *FRONTIER* Miles, lets members enjoy many benefits as well as the ability to attain Elite status. Like the airline, *FRONTIER* Miles is family friendly, and the program makes it easy for families to enjoy the rewards together, including family pooling of miles. *FRONTIER* Miles is aptly named because you earn one mile for every mile flown – no funny formulas at Frontier. Whether customers travel a little or a lot, they will find *FRONTIER* Miles rewarding.

The health and safety of customers and team members is Frontier's number one priority. With that in mind, Frontier introduced sweeping health and safety enhancements in 2020 that touch every step of a customer's travel journey with the airline.

Frontier requires all customers and crew members wear a face covering throughout their travel journey. Plus, anyone flying with Frontier must complete a health acknowledgement prior to flying confirming that:

- Neither they nor anyone in their household has exhibited Covid-19 related symptoms in the last 14 days
- They will wash their hands/sanitize before boarding the flight
- They understand and acknowledge the airline's face covering policy and pre-boarding temperature screening policies

During flight, main cabin air is a mix of fresh air drawn from outside and air that has been passed through an air filtration system that features HEPA filters capable of capturing respiratory virus particles at more than 99.9% efficiency – similar to those used in hospital environments. Frontier's modern all-Airbus fleet is among the youngest in the world, with an average age of approximately four years.

About Frontier Airlines:

Frontier Airlines ([NASDAQ: ULCC](#)) is committed to "Low Fares Done Right." Headquartered in Denver, Colorado, the company operates more than 100 A320 family aircraft and has the largest A320neo fleet in the U.S. The use of these aircraft, Frontier's seating configuration, weight-saving tactics and baggage process have all contributed to the airline's average of 43 percent fuel savings compared to other U.S. airlines (fuel savings is based on Frontier Airlines' 2019 fuel consumption per seat-mile compared to the weighted average of major U.S. airlines), which makes Frontier the most fuel-efficient U.S. airline. Frontier is also committed to families enabling children 14 years and younger to fly free through the airline's Discount Den travel club on qualifying flights. With over 150 new Airbus planes on order, Frontier will continue to grow to deliver on the mission of providing affordable travel across America.
